

Upgrade your contract management capabilities to facilitate system-wide interoperability and enhanced functionality

Benefit from enhanced functionality across all areas of contract management and increased connectivity options across your system with nThrive's Contract Management, Contract Modeler and Contract Analyzer

Currently using disparate systems and processes

- Multiple facilities
- Multiple contracts
- Multiple platforms

Streamline all facilities with nThrive's integrated solutions

- ✓ Accurately calculate expected payment to hold payors accountable for your revenue
- ✓ Accurately model contracts to forecast revenue, negotiate favorable contracts and manage payor relationships
- ✓ Gain immediate insight into all contract and payor performance with customizable reports and analytics

Seamlessly integrate with all your patient accounting systems as well as nThrive solutions for contract modeling and analytics

- ✓ Identify suspected underpayments, payment-to-charge ratios and days-to-payment
- ✓ Accurately calculate net A/R at claim submission
- ✓ Easily model complex side-by-side contract scenarios and resulting revenue impact across multiple facilities
- ✓ Identify interest due for untimely payments and quantify unbilled late charges for missed revenue
- ✓ Identify accounts having multiple payers, which can help you determine whether bills should be dropped to secondary or tertiary payers
- ✓ Leverage a variety of insightful and customizable reports and dashboards for actionable business intelligence—not just data

5-10x ROI
