Financial viability of health care providers could collapse due to COVID-19

Hospitals and physician practices are:
- Only treating emergency cases
- Postponing elective procedures
- Postponing routine appointments

Decrease in:
- Patient volume
- Case volume
- Visit volume

Over 50% decline in hospital revenue over the last month

Health care providers must act now to continue to serve their communities in the future:
- Financially clear patients
- Supplement staff
- Educate / train coding staff
- Provide physician utilization review
- Forecast, calculate and capture revenue owed
