

Access CARES Act Provider Relief Funds Today

Assistance with verification of uninsured patients

As part of the FFCRA and CARES Act, the U.S. Department of Health and Human Services (HHS) will provide claims reimbursement to health care providers generally at Medicare rates for testing uninsured individuals for COVID-19 and treating uninsured individuals with a COVID-19 diagnosis on or after February 4, 2020.¹ Reimbursement for testing and treatment will range from **\$13,297 to \$40,218**.

To receive funding, providers must complete multiple steps including verification of health care coverage eligibility to confirm patients are uninsured. nThrive can facilitate this critical part of the process – **verifying uninsured status**.

We can serve as an extension of your organization to verify that patients do not have coverage such as individual, employer-sponsored, Medicare or Medicaid and that no other payor will offer reimbursement for COVID-19 testing and/or care for the patient.

Steps to Achieve COVID-19 CARES Act Reimbursement

- 1 Enroll as a provider participant
- 2 **Verify and attest patient eligibility**
- 3 Submit patient information
- 4 Submit claims
- 5 Receive payment

Where
nThrive
can help

nThrive can help you achieve timely reimbursement from relief funds by:

Processing **large batches** of uninsured accounts

Preventing the need for manual verification of eligibility

Providing a file **within 24 hours** that identifies the insurance discovered

Why nThrive?

The nThrive **Data Management Processing** team

- ✓ Can setup the file process **within days**
- ✓ **Manage and oversee** file retrieval and return process via secure file transfer (SFTP)
- ✓ Return results file typically **within 24 hours**

We utilize the latest operational software, database technology and **proven processes for discovery**

It's easy to get started

1

Send us your National Provider Identifier (NPI)

2

Submit test file

3

Receive results

4

Establish future point of contact for file
