

Need accurate estimating that empowers providers and patients?

CarePricer® and **CarePricer Payment Estimator** help providers meet price transparency requirements while giving patients confidence to make informed healthcare decisions.

Accurate estimates help:

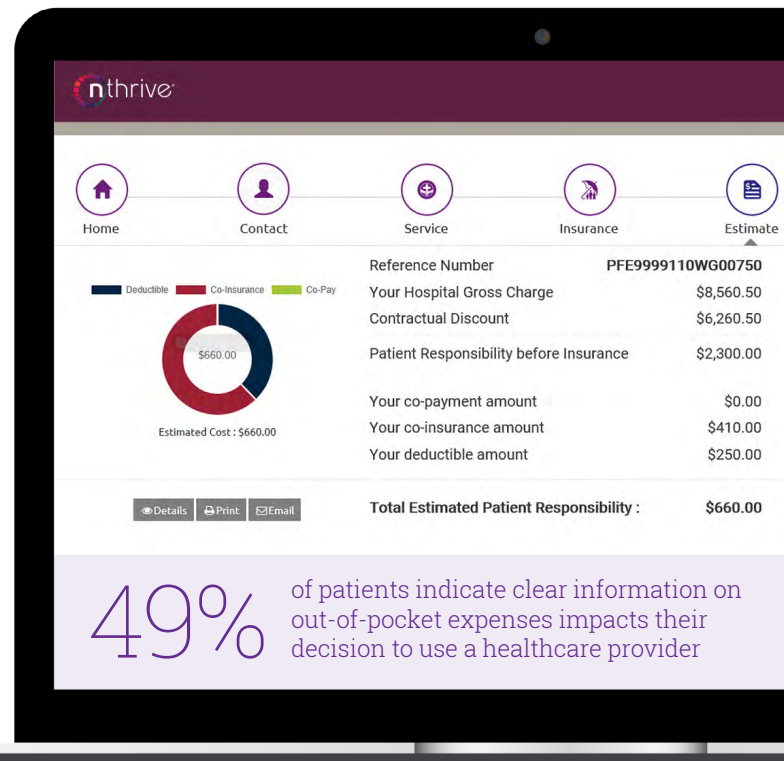

Increase patient satisfaction

Accelerate cash collection

Prevent bad debt

Reduce the downstream cost to collect

49%

of patients indicate clear information on out-of-pocket expenses impacts their decision to use a healthcare provider

CarePricer's holistic estimating solution

CarePricer enables **providers** to create accurate, patient-friendly bill estimates **within 95 percent of the final bill**, using information from payor contracts, historic charges and patient benefits.

CarePricer Payment Estimator empowers **patients** to create their own accurate, patient-friendly bill estimate 24/7 via your provider website.

Why nThrive?

- **Consistently accurate estimates** within 95% of the final bill
- **One of the only** price transparency platforms that can combine both hospital and physician charges on one estimate
- **Ensures your facility complies** with current and future price transparency requirements
- **Integrates seamlessly** with existing Patient Accounting Systems, as well as the nThrive Patient Access Technology Suite

Proven results

With a comprehensive estimating solution you'll have the ability to deliver accurate estimates when and where your patients want them.

Kettering Health Network **increased** POS collections by

\$6.1M

with **33% - 50%** of payments collected at the point of service.

Oklahoma State University Medical Center achieved **estimate accuracy** within

98%

of final bill, increasing POS collections **7X**

"Now we can tell patients, 'I'm confident this **estimate is based on the negotiated rate** in our contract.'"

– Pam Paschall, OSUMC Director, Patient Access
